SECTION A - GRANT APPLICATION FORMAT

ELIGIBILITY REQUIREMENTS

International or Multi-country Organizations

All applicants must be specialized institutions with a demonstrated and relevant track record and experience in working in two or more countries. **The FS IGP grant program is not open to single country organizations for work in their own country.** Multi-country organizations with local operating licenses that allow for delivery of microfinance services are eligible. Multi-country organizations directly offering services through established specialized microfinance branches, franchises, or affiliates are also eligible.

Local Registration

All local institutions or affiliates of international organizations must be registered as a legal entity in the country where the program will be developed. Local registration is not a requirement at application time, but **local registration must be effective by the time of award or the application will be rejected.** As a general rule, local organizations must have an operating board of directors by the time of award but exceptions may be considered for special cases (e.g., a branch of an international bank).

USAID Presence Countries

This RFA is open to receive applications from all USAID presence countries with the exception of Europe and Eurasia (E&E)². As in past years, no funds are available to support the IGP in this part of the world. The MD office seeks to work in support of and in collaboration with local USAID Missions. IGP grants are intended to complement USAID Mission strategic objectives for economic growth or poverty alleviation. **Applications from non-presence countries will not be considered.**

COST APPLICATION FORMAT

The Cost Application is to be submitted under separate cover (volume) from the technical application. Certain documents are required to be submitted by an applicant in order for an Agreement Officer to make a determination of responsibility. However, it is USAID policy not to burden applicants with undue reporting requirements if that information is readily available through other sources.

The following sections describe the documentation that applicants for Assistance award must submit to USAID prior to award. While there is no page limit for this portion, applicants are encouraged to be as concise as possible, but still provide the necessary detail to address the following:

- A. Include a budget with an accompanying budget narrative which provides in detail the total costs for implementation of the program your organization is proposing. The budget must be submitted using Standard Form (SF) 424 and 424A which can be downloaded from the USAID web site, http://www.usaid.gov/procurement_bus_opp/procurement/forms/sf424/. A copy of the SF 424 and 424A are included as an attachment to this RFA.

- the breakdown of all costs associated with the program according to costs of, if applicable, headquarters, regional and/or country offices;
- the breakdown of all costs according to each partner organization involved in the program;
- the costs associated with external, expatriate technical assistance and those associated with local in-country technical assistance;
- potential contributions of non-USAID or private commercial donors to this Cooperative Agreement;
- your procurement plan for commodities (note that contraceptives and other health commodities will not be provided under this Cooperative Agreement).

B. A current Negotiated Indirect Cost Rate Agreement (NICRA);

C. Required certifications and representations (See Section D):

D. Applicants are required to submit a detailed line item budget of their cost share contribution and the percentage proposed. Applicants must explain the type of contributions (i.e., volunteer services, donated supplies, donated equipment, cash, etc.). The applicants must also provide a breakdown of the cost share contributions of all organizations involved in implementing this Cooperative Agreement. Cost share contribution is encouraged from partners towards the total cost of the activity to support or contribute to the achievement of results.

E. Applicants who do not currently have a Negotiated Indirect Cost Rate Agreement (NICRA) from their cognizant agency shall also submit the following information:

1. copies of the applicant's financial reports for the previous 3-year period, which have been audited by a certified public accountant or other auditor satisfactory to USAID;
2. projected budget, cash flow and organizational chart;
3. A copy of the organization's accounting manual. If a copy has already been submitted to the U.S. Government, the applicant should advise which Federal Office has a copy along with contact information.

F. Applicants should submit any additional evidence of responsibility deemed necessary for the Agreement Officer to make a determination of responsibility. The information submitted should substantiate that the Applicant:

1. Has adequate financial resources or the ability to obtain such resources as required during the performance of the award;
2. Has the ability to comply with the award conditions, taking into account all existing and currently prospective commitments of the applicant, nongovernmental and governmental;
3. Has a satisfactory record of performance. Past relevant unsatisfactory performance is ordinarily sufficient to justify a finding of non-responsibility, unless there is clear evidence of subsequent satisfactory performance;

4. Has a satisfactory record of integrity and business ethics; and,
5. Is otherwise qualified and eligible to receive a grant under applicable laws and regulations (e.g., EEO).

SUBMISSION OF APPLICATIONS

APPLICATION PROCESS

All applications will be reviewed in two stages consisting of a qualification phase and a pre-award phase. During the qualification phase, applicant proposals will be competitively selected based on the IGP selection criteria as outlined in Section C of this RFA. Applicants who are qualified for the pre-award phase will be so advised by an USAID Agreement Officer. Successful completion of the

qualification phase does not assure a grant award will be made. The application process is detailed below.

A. Pre-application Conference

A pre-application conference will be held on December 6, 2005 from 11:00 AM to 12:30 PM EST. This conference will allow prospective applicants to obtain clarification on questions they have concerning this RFA and the review and selection process. Attendance at this conference is voluntary and is not required in order to apply for the FS IGP. A transcription of the conference will be posted to www.grants.gov. **Prospective applicants will not be permitted to phone into the conference.**

The location of the meeting room will be at the QED Group located at 1250 Eye Street, NW, Suite 1100, Washington, DC, 20005. Pre-registration is required. To be placed on the list for entry, attendees must provide their name, organization and number of attendees no later than November 23, 2005 to Janell Mobley, USAID, MD Office, at (202) 216-3228, jmobley@usaid.gov. We request no more than 2 attendees for each potential applicant.

B. Qualification Phase - Review Scoring and Selection

The MD technical evaluation team will review applications, with input from appropriate USAID Missions and Bureaus as needed, based on the eligibility and selection criteria outlined in the RFA. The technical portion of the review process will take about 60 days to permit all USAID input to be assembled and reviewed. Applicants will be notified if there are minor technical issues requiring clarification. Applications under consideration will be notified and will then move to a "pre-award phase." Selection for award consideration does not ensure an award. Applications not receiving awards will be notified in accordance with ADS 303, Grants and Cooperative Agreements to Non-Governmental Organizations.

C. Pre-Award Phase

1. Field Assessment

Applicants under consideration for award may be requested to participate in a field assessment by MD staff. The MD office endeavors to visit all applicant programs before an award is made. However, there are times when a pre-award visit cannot be completed in a timely manner, and in such cases, the MD office will determine whether it has sufficient information about a program to move an application forward. USAID reserves the right to award without performing a field assessment.

The purpose of the field assessments is to: (1) assess the capacity of the Applicant and Local Partner to achieve the goals presented in the application; (2) understand the potential impact of the innovation/breakthrough and the key constraints and challenges to reaching the program's goals; (3) assess the current state of institutional development of the Local Partner, including the adequacy of personnel, management, information systems, (4) verify data presented in proposal, and (5) assess the degree to which the annual and end-of-project targets are reasonable. Applicants will be invited and encouraged to participate in the USAID field assessment. The MD office will notify USAID Missions and Regional bureaus of travel plans and request their concurrence.

2. Pre-award Audit

Successful Applicants who have never received funding from USAID will be subjected to a pre-award audit to assess financial and accounting systems, analyze adequacy of financial controls and establish an indirect cost rate. Completion of a pre-award audit may delay the final award.

D. Final Agreement on Targets and Budget

The Applicant and the MD Office will negotiate final targets until both parties are satisfied that they are appropriate. Final budgets will be subject to availability of funds and the outcome of the grant review process. Negotiation of budget and final award for qualified applicants who have successfully completed the qualification and pre-award phases, successfully negotiated program targets with MD and that have been recommended for award will be completed by the Office of Acquisition and Assistance. USAID reserves the right to issue awards without discussions.

SECTION B - PROGRAM DESCRIPTION

FINANCIAL SERVICES

The U.S. Agency for International Development's Microenterprise Development office (USAID/MD) is pleased to announce the Implementation Grant Program (IGP) for FY 2006. The 2006 IGP consists of two Request for Applications (RFA): one for financial services and another other for enterprise development services. **This RFA is for Financial Services only.** USAID/MD requests applications to this Financial Services (FS) IGP that employ innovative ideas to (1) increase access to financial services for the developing world's very poor, (2) and through participation in a learning network, generate replicable processes, tools and methodologies for reaching the very poor in the developing world.

A. Introduction to the 2006 Implementation Grant Program

Microfinance³ is reaching only a small fraction of the very poor, and the demand for various kinds of financial services goes largely unmet. The absence of financial services complicates the very poor's ability to take advantage of economic opportunities, send children to school, buy medicine, save for the future, and smooth household cash flow. Many microfinance organizations do not target this group because they incur higher administrative costs per unit due to a lower average loan size and/or smaller savings accounts. However, industry advances are enabling some to move further down market. Process and product improvements accompanied by technology solutions are helping to drive down the costs and risks associated with serving the very poor; alliances with commercial lenders are enabling greater access to private capital; and some investors are requiring that their funds target the very poor.

USAID/MD challenges applicants to reach deeper below the poverty line with financial services that enable very poor households to upgrade and stabilize their livelihoods. IGP recipients will target very poor markets, including women and rural households, as well as those suffering from emergency situations such as natural disasters, war, and HIV. By learning together, IGP recipients will also explore innovative modes for delivering financial services to these difficult-to-reach markets. Methodologies will be proven or invalidated, lessons will be learned and disseminated, and the risks to delivering financial services to very poor markets will be better understood.

Opens the door for innovation. USAID recognize that the very poor are not homogeneous, nor are their financial needs. Hence, USAID/MD is not making any attempt to emphasize one service delivery approach over another, nor are we emphasizing credit delivery over other financial services. Poor households may value savings as much as, or more than, loans; and, we believe there is strong unmet demand for non-traditional services such as insurance or remittances. Applicants may propose any mix of financial services or delivery techniques providing the target audience for those services is the very poor.

A.1. What's new in the 2006 FS IGP RFA?

Establishes an FS IGP learning network. The main adjustment to the FY2006 IGP from the FY2003 FS IGP is a requirement for a more structured learning agenda. Through a learning network, IGP

³ Microfinance refers to the delivery of financial services to poor households. Services include loans for business and personal use, savings and other deposit products, remittances and transfers, payment services, insurance, and potentially other financial products.

A.1. What's new in the 2006 FS IGP RFA?

Establishes an FS IGP learning network. The main adjustment to the FY2006 IGP from the FY2003 FS IGP is a requirement for a more structured learning agenda. Through a learning network, IGP recipients will share experiences and generate methodologies in various circumstances to bring financial services down-market. USAID will contract a separate organization to facilitate and administer joint meetings, peer exchanges, and virtual information-sharing.

Institutes new poverty measurement tools. All applicants must clearly identify how the client groups targeted by their program meet the criteria for "the very poor." Recent legislation requires USAID to invest at least 50% of annual microenterprise funding into programs targeting the very poor. Per HR3818, "the very poor" are those individuals who are either living on less than \$1.00/day (at Purchasing Power Parity⁴), or who are among the poorest 50% of people living below the national poverty line. USAID is currently in the process of developing two tools for assessing the poverty level of its microenterprise clients. By October 2006, applicants must utilize these tools in their reporting to ensure that their programs are indeed reaching the very poor.⁵

B. IGP Background

More than a decade of microenterprise innovation at USAID. In June 1994, USAID launched an initiative to promote microenterprise development as an important part of the Agency's economic growth efforts. The Microenterprise Innovation Project (MIP) provided the framework around which the Microenterprise Development office (MD) was created. The MIP remains a major vehicle through which MD implements the Agency's Microenterprise Initiative. Under the Initiative, USAID is committed to four principles in designing and implementing programs:

- Maintaining focus on women and the very poor;
- Helping implementers reach greater scale;
- Supporting institutional sustainability and financial self-sufficiency; and
- Seeking improved partnerships with international and local organizations.

The Microenterprise Development Policy Paper, issued in 1995, defines the goals and the best practice techniques approved by the Agency. The Policy Paper is available online at www.microlinks.org. The Microenterprise Initiative was renewed in June 1997, and passage of the Microenterprise for Self Reliance Act of 2000 reinforced a commitment to those principles. In 2004 the U.S. Congress passed the Microenterprise Results and Accountability Act (HR 3818), once again maintaining the Agency's commitment for reaching the poor.

To date, the IGP has awarded 79 Financial Services grants worth a total of \$111 million through U.S. and international organizations engaged in microenterprise development. These investments have strengthened networks, funded the startup and expansion of microenterprise service providers, promoted the growth of markets for financial and business services, and supported innovations in client-responsive products and services. USAID's investment has identified and promoted a wider acceptance of best practices in financial services and business development.

The MIP includes a range of activities designed to promote industry building and knowledge generation as well as supporting USAID's field missions. In addition to the Financial Services Implementation Grant Program, these programs include:

- *Business Development Services Implementation Grant Program (BDS IGP)*. These grants are improving the competitiveness of value chains and/or clusters in which large numbers of MSEs participate. There are eight active BDS IGP grants valued at approximately \$7 million. BDS IGP grant recipients currently participate in a structured learning agenda and develop tools and case studies around specific themes.
- *Grants under Contract (GUC)*. The FY 2006 GUC offers grant funding to non-profit organizations to advance the Agency's microenterprise learning agenda. Grants are for up to 3 years in duration for budgets ranging between \$25,000 and \$250,000. The application and administrative processes of GUC grants are administered by PACT International in collaboration with Weidemann Associates.
- *Leader with Associates (LWA) project*. USAID/MD has awarded a Leader with Associates (LWA)⁶ cooperative agreement called the Financial Integration, Economic Leveraging, broad-based Dissemination and Field-Support program. The value of the Leader award is anticipated to be up to \$10 million over five years and will support a broad range of microenterprise activities. FIELD can accept up to \$340 million in associate awards.
- *Practitioner Learning Program (PLP)*. The PLP supports practitioner-led action research agendas with small grants up to \$75,000 to facilitate better access to a range of financial and non-financial services. Managed by the Small Enterprise Education and Promotion (SEEP) Network, and similar to the BDS IGP program, PLP grant recipients established a learning network and share experiences and document findings.
- *Program for Innovation in Microenterprise (PRIME)*. The PRIME Fund co-finance mission-designed and managed microenterprise activities. PRIME funds assist missions in accomplishing their own objectives while encouraging missions to make definitive advances in their support of microenterprise development. Mission investments up to \$750,000 are matched by MD funds. In FY 2005, USAID/MD distributed \$2 Million in PRIME funds to USAID Mission programs.
- *The Accelerating Microenterprise Advancement Project (AMAP)*. AMAP is a field support and knowledge generation Indefinite Quantity Contract focused on developing strategies and tools to integrate micro and small enterprises into Agency programs. In total, AMAP can accept up to \$180 million in activity orders. AMAP research products and themes are separately described at www.microlinks.com

C. Technical Approach

Over the past decade, competition among microfinance providers has led to increased autonomy from donors. Many MFIs are mobilizing deposits, strengthening their governance and the transparency of their operations, and improving the quality and range of services. However, increased competition has also caused some MFIs to shift their focus up-market where average

savings and loans are larger and it's easier to make a profit. Many of the very poor, especially those in harder-to-reach markets, remain without access to formal financial services.

How can IGP funds be used to reach the very poor? USAID calls for innovative program proposals that will expand existing efforts, or kick-start new or renewed efforts to reach very poor markets. Funds may be used for market research, technical assistance, technology upgrades, geographic expansion, and if appropriately justified, capital for on-lending.

Program architecture and results framework. This IGP comprises two core components: (1) activities aimed at reaching and retaining very poor clients; and, (2) the FS IGP learning network. Under the first component, applicants will describe the market context and intervention strategy. Through the learning network, applicants will identify and elaborate on key learning themes related to the proposed intervention.

Exhibit 1. Results Framework

Applicants must propose and will be evaluated on the soundness of their proposed intervention and the institutional and client level indicators and targets that will be used to monitor and assess progress and impact (discussed in B4). Proposed outputs and indicators should feed into above-mentioned program components and address the breadth and depth of poverty outreach and financial sustainability of the proposed intervention. Further, a report with baseline data and analysis will be required subsequent to award. The baseline report should reflect an enumeration of income earning activities of the target population/market. In this way, the program can more fully capture and attribute program interventions with changes in household and business income. Applicants should also propose deliverables/targets for the IGP learning network that reflect the

proposed learning objectives of the grant. These targets will be jointly agreed upon before final award.

Sustainability strategy. Applicants must provide a plan for how strategies and products will be sustained after the grant period. The plan should answer how the local institution will continue to serve the very poor in a sustainable way, and/or discuss a strategy of how the local institution will use commercial capital (loans, investment capital, savings, and retained earnings) to sustain activities. Additionally, organizational capacity to continue service delivery should be addressed.

As a rule, USAID/MD prefers to “complement, not replace, private sources of capital”.⁷ In many cases, donor funding for on-lending distorts financial markets. However, the financial viability of difficult-to-reach groups (i.e. the very poor) may be perceived as questionable by commercial sources of funds. Hence, IGP grant funds may be used to capitalize the loan portfolios of individual programs; however, if proposed, applicants must provide a strong rationale or justification that is clearly linked to the delivery of services to the target group. In all cases, IGP funding should be viewed as temporary start-up support designed to get an institution to the point where it can tap private funding sources.

C.1. Frontier Areas of Interest

Remarkable progress has been made in providing poor entrepreneurs and households with access to a broad array of financial products and services; however, the benefits have generally been enjoyed most by those with incomes just below or just above the poverty line. USAID is seeking applications with innovative and sustainable strategies, involving appropriate risk-taking that leads to increased industry capacity to reach the very poor. To bring financial services further down market, applicants may consider the following illustrative areas:

- *Non-credit.* Microfinance is not just about credit. Savings products are of critical importance in enabling the poor to build assets, protect against external shocks, and take advantage of economic opportunities. In some areas, insurance products are also becoming more common and relevant (health/life, property damage, etc). Remittances and transfer services are becoming more important to MFI's because they permit clients to receive funds from abroad and offer an institutional opportunity to encourage greater savings while cross-selling other financial products.
- *Credit.* Credit products that fit the capacity of the poor to repay and are adequately protected against the risks posed by lending to the very poor are eligible for funding under this IGP.
- *Rural finance.* The microfinance industry has made significant progress in meeting the demand for services in urban and peri-urban markets; however, access to financial services in rural areas (and particularly in more remote rural areas and among small holder households) is very limited. With the exception of some Asian microfinance markets, few MFIs have been able to profitably penetrate rural credit markets for well-known reasons⁸. Recent USAID experiences suggest that relationships and alliances with value chain actors

⁷ See <http://www.cgap.org/docs/donorguidelines.pdf>

⁸ These reasons include high transaction costs for both borrowers and lenders; high risks faced by potential borrowers and depositors due to the variability of incomes, exogenous economic shocks and limited tools to manage risk; lack of reliable information about borrowers; lack of adequate collateral; and inhospitable policy, legal and regulatory frameworks.

such as buyers, processors, producers groups and input suppliers can help MFIs find new clients, help MFIs learn more about the needs of agricultural clients, and can lower risks.

- *Financial services for complex circumstances and special groups.* Communities that are just emerging from a conflict, or are experiencing high incidence of HIV, food security issues, or other major economic drains must continue to generate income for themselves and their families. Recent USAID experiences in Sri Lanka after the Indian Ocean tsunami, in Central America after Hurricane Mitch, and in post-conflict Sierra Leone and East Timor, suggests that in many cases financial services with appropriate terms and conditions can assist households rebuild livelihoods⁹.

C.2. Reaching and Retaining the Very Poor

USAID is concerned about "getting the process right," and for this reason has chosen marketing principles as a framework for this IGP. Once an applicant has decided to enter into a new market (the very poor), or to expand current operations to more of the very poor, the applicant should propose and characterize which type – or types – of market strategies are needed to reach the very poor. The Kotler framework is provided as an illustration, but applicants may choose to explain their approach in other terms.

Exhibit 2: Nine Ways to Build Demand¹⁰

	Existing Products	Modified Products	New Products
MARKETS	Market Penetration Sell more of existing products to existing customers	Product Modification Modify current product, sell more of them to existing customers	New Product Development Design new products that will appeal to our existing customers
	Geographical Expansion Enter and sell products in other areas	Product Modification/Geographical expansion Approach Offer and sell modified products to new geographical markets	New Product/Geographic Expansion Design new product for prospective clients in new geographic areas
	Segment Invasion Sell existing products to new types of customers	Product Modification/Segment Invasion Approach Offer and sell modified products to new types of customers	Diversification Design new products to sell to new types of clients.

Applicants may propose to roll out a financial innovation to another region (*geographical expansion strategy*). Similarly, USAID will consider applicants that are not currently serving the very poor, but have the capacity to move down-market using new approaches, such as a new methodology or technology solution, or through the design of market-led products (*diversification strategy*). Applicants may use one or more of these illustrative strategies.

⁹ Microfinance shouldn't be confused with relief. Microfinance only works when people have access to economic opportunities requiring credit and are actively engaged in economic pursuits.

¹⁰ Kotler on Marketing: "How to Create, Win and Dominate Markets" 1999, p46

Planning for a specific intervention typically follows a step-by-step process that flows from research, to design, to testing and eventual rollout. In this IGP round, USAID is interested in understanding the process that has been followed by applicants in determining client demand as well as the proposed steps for testing and rolling-out the product, service or methodology¹¹. Applicants should therefore be prepared to discuss these steps and describe:

- The proposed market and the reasoning for targeting this group, and link this market analysis to the proposed intervention. Applications should describe the strategy, the product and service choices, and the degree to which a poverty focus fits within the institution's overall service delivery strategy.
- The intervention and how it will improve access to financial services for the very poor and how it will affect the institution – operationally and financially.
- The process to test the approach and the efforts taken to ensure the proposed product or service is responsive to client demand and the institution's ability to provide sustainable access.
- The plan for rolling out a chosen intervention strategy. Applicants should pay attention to measuring and monitoring during the testing and roll out, and determining the parameters of this phase.

In addition to reach, applicants will also seek retention of the very poor. Dropouts are costly to institutions and disruptive to the joint liability dynamic needed for group loans. Additionally, high dropout rates often indicate dissatisfaction with the services. Applicants should give thought strategies for clients graduating from the proposed financial services.

Stronger applications will examine their intervention systematically, and will present a forward looking, convincing three-year project work plan that takes financial sustainability and organizational change into account. The work plan should spell out activities related to the above steps as well as the following considerations. Applicants should demonstrate in quantitative terms the path to financial sustainability for the intervention. For example, applicants choosing geographic expansion strategies must demonstrate the viability and demand in the new market for the proposed product or service, articulate the promotion strategy, as well as plan for recruiting and training new staff. Applicants should indicate the intervention's impact on organizational processes. Applicants must explain the product or service features, and of course, determine if the product may be offered under the current legal framework. The work plan should include milestones and targets, such as launching of the pilot and roll out (if applicable), and the anticipated breakeven point.

C.3. Financial Services IGP Learning Network

This IGP emphasizes collaborative learning, through sharing success stories, as well as innovations that fall short of expectations. USAID does not expect 100% success for all strategies tested, as there is no clear formula for reaching very poor clients. USAID has placed significant focus on the

¹¹ The steps are not just appropriate for entering into new markets, the stages are also important in terms of learning. If the process used by IGP FS awardees for entering these markets is synchronized and similar enough, the areas of mutual concern will be more relevant to all participants of the learning network.

process, methods and learning. Failures in process are relevant to a much wider group of practitioners than are failures of product.

Through the Practitioner Learning Program (PLP), MD has created learning networks around core thematic areas of mutual concern in both the financial services and enterprise development fields. To be eligible for award, applicants must actively participate in the IGP learning network. Applications should propose a plan that demonstrates an active role in the learning network. Further, applicants should propose key learning themes that are linked to the proposed approach and important to advancing the microfinance industry.

FS IGP learning network members will meet physically after the IGP awards are made to revisit and refine proposed learning themes. Each grantee will produce action research studies under the agreed-upon themes. These studies will also be drawn directly from the participant's experiences implementing the proposed IGP program. Participants will meet face-to-face annually and jointly visit a sister IGP program. The number of studies and the specific topics will be firmed up during the first face-to-face meeting post-award. Virtual space will be provided on www.microlinks.org to allow members to actively share concerns and implementation expertise, as well as pose questions and challenge assumptions.

USAID will conduct or will engage a separate organization to facilitate joint meetings, peer exchanges, and virtual information-sharing. The facilitator will coordinate the learning network, provide guidance to participants, and assist with the documentation of lessons learned across grants. Participants should not budget for joint-meetings, however, applicants should budget time and costs associated with participating in the learning network virtually and generating proposed learning deliverables (i.e. case studies).

D. Monitoring and Evaluation

M&E systems deliver information to understand progress toward objectives, providing a basis for mid-course corrections, and impact assessment. While monitoring is the process of tracking performance data to determine progress of current operations and to make adjustments to program intervention tactics, evaluation is needed to understand whether our interventions result in impact on the client and the institution. Applicants should describe their approaches for monitoring and evaluation at the intervention and client-level, and at the institutional level.

Intervention and client level. Applicants should describe the information systems they will use to monitor the proposed intervention, and describe how this system will ensure that relevant information is available for decision-making. Additionally, applicants should propose targets, outputs and indicators to measure program performance. Further, a report with client-level baseline data will be an output early in the first year of the life of the grant.

USAID is developing two tools for assessing the poverty level of its microenterprise clients. Starting in October 2006, all recipients of USAID microenterprise funding will be required to use these tools to report on their poverty outreach. Applicants should be prepared to use these tools as they become available. For further information on USAID's work on poverty assessment tools, please go to <http://www.povertytools.org>.

Institutional-level data. Successful applicants must comply with semi-annual institutional and financial performance reporting requirements as detailed in Table 1, which can be electronically downloaded from the RFA posted on www.fedgrants.gov or www.grants.gov. For consideration,

applicants must complete a base-line table one and submit it as an annex to the application. On a semi-annual basis, applicants receiving an award must submit updates to Table 1.

E. Reporting

The following reports will be submitted to the USAID Cognizant Technical Officer: (1) Biannual reports, including narrative on project performance towards goals and objectives, discussion of the learning agenda and budget. Successful applicants must comply with semi-annual institutional level reporting requirements as detailed in Table 1. Applicants must go to www.fedgrants.gov or www.grants.gov to download an Excel file of this Table 1 with all necessary formulas. (2) Final report, summarizing accomplishments, challenges, a synthesis of lessons related to the learning agenda, and budget is due 90 days after the closing date of the agreement. (3) Each FS IGP grantee will be required to specify the activities to be undertaken by submitting a yearly work plan for MD approval unless otherwise determined by the Cognizant Technical Officer.

F. Capital Grants

As discussed in the technical approach, USAID/MD prefers to “complement, not replace, private sources of capital”.¹² In many cases, donor funding for on-lending distorts financial markets. However, as the viability of difficult-to-reach groups can be perceived as questionable by commercial sources of funds. IGP grant funds may be used to capitalize the loan portfolios of individual programs; however, if proposed, applicants must provide a strong rationale or justification that is clearly linked to the delivery of services to the target group. In all cases, IGP funding should be viewed as temporary start-up support designed to get an institution to the point where it can tap private funding sources. Applicants should therefore plan to tap private sources of capital subsequent to project completion.

G. Substantial Involvement

USAID/MD will be substantially involved during the period of the cooperative agreement. Specifically, the USAID Cognizant Technical Officer (CTO) will provide:

1. Approval of the recipient's annual work plan.
2. Approval of specified key personnel.
3. Agency and recipient collaboration or joint participation. The following are examples of appropriate levels of substantial involvement:
 - a. Concur on the selection of subaward recipients and/or the substantive provisions of the subawards;
 - b. Approval of the recipient's monitoring and evaluation plans;
 - c. Agency monitoring to permit specified kinds of direction or redirection because of interrelationships with other projects. All such activities must be included in the Program Description and negotiated in the budget of the award.

¹² See <http://www.cgap.org/docs/donorguidelines.pdf>

- d. Approval for all action research deliverables

H. Program Income

Program income is gross income—earned by a grantee, a consortium participant, or a contractor under a grant—that was directly generated by the grant-supported activity or earned as a result of the award. Program income includes, but is not limited to, income from fees for services performed; charges for the use or rental of real property, equipment or supplies acquired under the grant; the sale of commodities or items fabricated under an award; charges for research resources; and license fees and royalties on patents and copyrights. (Note: Program income from license fees and royalties from copyrighted material, patents, and inventions is exempt from reporting requirements.)

In accordance with 22 CFR 226.24, program income earned during the project period shall be retained by the recipient and, in accordance with USAID regulations, other implementing guidance, or the terms and conditions of the award, shall be added to funds committed by USAID and the recipient to the projector program, and used to further eligible project or program objectives. The amount of program income earned and the amount expended must be reported to the Agreement Officer and to the CTO on the Financial Status Report (FSR) (SF 269—Long Form).

I. Key Personnel

The Headquarters Technical Backstop and Field Program Manager are considered key personnel and required for successful completion of the objectives of any potential awards. Replacement or diversion of these personnel is subject to approval by the USAID Cognizant Technical Officer (CTO) and Agreement Officer.

SECTION C - SELECTION CRITERIA

The criteria presented below have been tailored to the requirements of this particular RFA. Applicants should note that these criteria serve to: (a) identify the significant matters which applicants should address in their applications and (b) set the standard against which all applications will be evaluated. To facilitate the review of applications, applicants should organize the narrative sections of their applications in the same order as the selection criteria.

The technical applications will be evaluated in accordance with the Technical Evaluation Criteria set forth below. Applications that are not technically acceptable will not be evaluated and will not receive further consideration. The cost application of all applicants submitting a technically acceptable application will be opened and costs will be evaluated for general reasonableness, allowability, and allocability.

The applicant's cost share contribution will be reviewed for cost realism and to verify that the applicants meet the standards set in 22 CFR 226.23 for U.S. organizations, or the Standard Provision entitled "Cost Sharing" for non-U.S. organizations (See 22 CFR 226.23; and Standard Provisions for Non-U.S. Nongovernmental Recipients).

To the extent that they are necessary (if award is not made based on initial applications), negotiations will then be conducted with all applicants whose application, after discussion and negotiation, has a reasonable chance of being selected for award. Awards will be made to responsible applicants whose applications offer the greatest value, cost and other factors considered.

A. Description of Selection Criteria

During the qualification phase, all applications will be evaluated utilizing the following evaluation criteria. Applications should be submitted with a clear indication of how the activities will meet the following program objectives and criteria:

3. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS -- PRIMARY COVERED TRANSACTIONS [3]

(a) Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation

will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meaning set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. [4] You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Covered Transaction," [5] provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the methods and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealing.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

(b) Certification Regarding Debarment, Suspension, and Other Responsibility Matters--Primary Covered Transactions

(1) The prospective primary participant certifies to the best of its knowledge and belief, and its principals:

(A) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(B) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

10. USAID ELIGIBILITY RULES FOR GOODS AND SERVICES (April 1998)

(This provision is not applicable to goods or services which the recipient provides with private funds as part of a cost-sharing requirement, or with Program Income generated under the award.)

(a) Ineligible and Restricted Goods and Services: USAID's policy on ineligible and restricted goods and services is contained in ADS Chapter 312.

(1) Ineligible Goods and Services. Under no circumstances shall the recipient procure any of the following under this award:

- (i) Military equipment,
- (ii) Surveillance equipment,
- (iii) Commodities and services for support of police or other law enforcement activities,
- (iv) Abortion equipment and services,
- (v) Luxury goods and gambling equipment, or
- (vi) Weather modification equipment.

(2) Ineligible Suppliers. Funds provided under this award shall not be used to procure any goods or services furnished by any firms or individuals whose name appears on the "Lists of Parties Excluded from Federal Procurement and Nonprocurement Programs." USAID will provide the recipient with a copy of these lists upon request.

(3) Restricted Goods. The recipient shall not procure any of the following goods and services without the prior approval of the Agreement Officer:

- (i) Agricultural commodities,
- (ii) Motor vehicles,

- (iii) Pharmaceuticals,
- (iv) Pesticides,
- (v) Used equipment,
- (vi) U.S. Government-owned excess property, or
- (vii) Fertilizer.

Prior approval will be deemed to have been met when:

- (i) the item is of US source/origin;
- (ii) the item has been identified and incorporated in the program description or schedule of the award (initial or revisions), or amendments to the award; and
- (iii) the costs related to the item are incorporated in the approved budget of the award.

Where the item has not been incorporated into the award as described above, a separate written authorization from the Agreement Officer must be provided before the item is procured.

(b) Source and Nationality: The eligibility rules for goods and services based on source and nationality are divided into two categories. One applies when the total procurement element during the life of the award is over \$250,000, and the other applies when the total procurement element during the life of the award is not over \$250,000, or the award is funded under the Development Fund for Africa (DFA) regardless of the amount. The total procurement element includes procurement of all goods (e.g., equipment, materials, supplies) and services. Guidance on the eligibility of specific goods or services may be obtained from the Agreement Officer. USAID policies and definitions on source, origin and nationality are contained in 22 CFR Part 228, Rules on Source, Origin and Nationality for Commodities and Services Financed by the Agency for International Development, which is incorporated into this Award in its entirety.

(1) For DFA funded awards or when the total procurement element during the life of this award is valued at \$250,000 or less, the following rules apply:

(i) The authorized source for procurement of all goods and services to be reimbursed under the award is USAID Geographic Code 935, "Special Free World," and such goods and services must meet the source, origin and nationality requirements set forth in 22 CFR Part 228 in accordance with the following order of preference:

- (A) The United States (USAID Geographic Code 000),
- (B) The Cooperating Country,
- (C) USAID Geographic Code 941, and
- (D) USAID Geographic Code 935.

(ii) Application of order of preference: When the recipient procures goods and services from other than U.S. sources, under the order of preference in paragraph (b)(1)(i) above, the recipient shall document its files to justify each such instance. The documentation shall set forth the circumstances surrounding the procurement and shall be based on one or more of the following reasons, which will be set forth in the grantee's documentation:

(A) The procurement was of an emergency nature, which would not allow for the delay attendant to soliciting U.S. sources,

(B) The price differential for procurement from U.S. sources exceeded by 50% or more the delivered price from the non-U.S. source,

(C) Compelling local political considerations precluded consideration of U.S. sources,

(D) The goods or services were not available from U.S. sources, or

(E) Procurement of locally available goods and services, as opposed to procurement of U.S. goods and services, would best promote the objectives of the Foreign Assistance program under the award.

(2) When the total procurement element exceeds \$250,000 (unless funded by DFA), the following applies: Except as may be specifically approved or directed in advance by the Agreement Officer, all goods and services financed with U.S. dollars, which will be reimbursed under this award must meet the source, origin and nationality requirements set forth in 22 CFR Part 228 for the authorized geographic code specified in the schedule of this award. If none is specified, the authorized source is Code 000, the United States.

(c) Printed or Audio-Visual Teaching Materials: If the effective use of printed or audio-visual teaching materials depends upon their being in the local language and if such materials are intended for technical assistance projects or activities financed by USAID in whole or in part and if other funds including U.S.-owned or U.S.-controlled local currencies are not readily available to finance the procurement of such materials, local language versions may be procured from the following sources, in order of preference:

- (1) The United States (USAID Geographic Code 000),
- (2) The Cooperating Country,
- (3) "Selected Free World" countries (USAID Geographic Code 941), and
- (4) "Special Free World" countries (USAID Geographic Code 899).

(d) If USAID determines that the recipient has procured any of these goods or services under this award contrary to the requirements of this provision, and has received payment for such purposes, the Agreement Officer may require the recipient to refund the entire amount of the purchase.

(e) This provision must be included in all subagreements which include procurement of goods or services which total over \$5,000.

11. USAID DISABILITY POLICY – ASSISTANCE (December 2004)

(a) The objectives of the USAID Disability Policy are (1) to enhance the attainment of United States foreign assistance program goals by promoting

the participation and equalization of opportunities of individuals with disabilities in USAID policy, country and sector strategies, activity designs and implementation; (2) to increase awareness of issues of people with disabilities both within USAID programs and in host countries; (3) to engage other U.S. government agencies, host country counterparts, governments, implementing organizations and other donors in fostering a climate of nondiscrimination against people with disabilities; and (4) to support international advocacy for people with disabilities. The full text of the policy paper can be found at the following website:
<http://www.usaid.gov/about/disability/DISABPOL.FIN.html>.

- (b) USAID therefore requires that the recipient not discriminate against people with disabilities in the implementation of USAID funded programs and that it make every effort to comply with the objectives of the USAID Disability Policy in performing the program under this grant or cooperative agreement. To that end and to the extent it can accomplish this goal within the scope of the program objectives, the recipient should demonstrate a comprehensive and consistent approach for including men, women and children with disabilities.

12. ORGANIZATIONS ELIGIBLE FOR ASSISTANCE (JULY 2004)

The U.S. Government is opposed to prostitution and related activities, which are inherently harmful and dehumanizing, and contribute to the phenomenon of trafficking in persons. None of the funds made available under this agreement may be used to promote, support or advocate the legalization or practice of prostitution. Nothing in the preceding sentence shall be construed to preclude assistance designed to ameliorate the suffering of, or health risks to, victims while they are being trafficked or after they are out of the situation that resulted from such victims being trafficked. Foreign organizations, whether prime or sub-recipients, that receive U.S. Government funds to fight trafficking in persons cannot promote, support or advocate the legalization or practice of prostitution when they are engaged in overseas activities. The preceding sentence shall not apply to organizations that provide services to individuals solely after they are no longer engaged in activities that resulted from such victims being trafficked.

 - (1) No funds made available under this award will be used to finance, support, or be attributed to the following activities: (i) procurement or distribution of equipment intended to be used for the purpose of inducing abortions as a method of family planning; (ii) special fees or incentives to women to coerce or motivate them to have abortions; (iii) payments to persons to perform abortions or to solicit persons to undergo abortions; (iv) information, education, training, or communication programs that seek to promote abortion as a method of family planning; and (v) lobbying for abortion.
 - (2) No funds made available under this award will be used to pay for any biomedical research which relates, in whole or in part, to methods of, or the performance of, abortions or involuntary sterilizations as a means of family planning. Epidemiologic or descriptive research to assess the incidence, extent or consequences of abortions is not precluded.
- (d) The recipient shall insert this provision in all subsequent subagreements and contracts involving family planning or population activities which will be supported in whole or part from funds under this award.

(END OF STANDARD PROVISION)

7. PROTECTION OF THE INDIVIDUAL AS A RESEARCH SUBJECT (April 1998)

(This provision is applicable when human subjects are involved in research financed by the award.)

(a) Safeguarding the rights and welfare of human subjects involved in research supported by USAID is the responsibility of the organization to which support is awarded. USAID has adopted the Common Federal Policy for the Protection of Human Subjects, Part 225 of Title 22 of the Code of Federal Regulations (the "Policy"). Additional interpretation, procedures, and implementation guidance of the Policy are found in USAID General Notice entitled "Procedures for the Protection of Human Subjects in Research Supported by USAID", issued April 19, 1995, as from time to time amended. USAID's Cognizant Human Subjects Officer (CHSO) in AID/W has oversight, guidance, and interpretation responsibility for the Policy.

(b) Recipient organizations must comply with USAID policy when humans are the subject of research, as defined in 22 CFR 225.102(d), funded by the grant and recipients must provide "assurance", as required by 22 CFR 225.103, that they follow and abide by the procedures in the Policy. See also Section 5 of the April 19, 1995, USAID General Notice which sets forth activities to which the Policy is applicable. The existence of a bona fide, applicable assurance approved by the Department of Health and Human Services (HHS) such as the "multiple project assurance" (MPA) will satisfy this requirement. Alternatively, organizations can provide an acceptable written assurance to USAID as described in 22 CFR 225.103. Such assurances

must be determined by the CHSO to be acceptable prior to any applicable research being initiated or conducted under the award. In some limited instances outside the U.S., alternative systems for the protection of human subjects may be used provided they are deemed "at least equivalent" to those outlined in Part 225 (See 22 CFR 225.101[h]). Criteria and procedures for making this determination are described in the General Notice cited in the preceding paragraph.

(c) Since the welfare of the research subject is a matter of concern to USAID as well as to the organization, USAID staff consultants and advisory groups may independently review and inspect research and research processes and procedures involving human subjects, and based on such findings, the CHSO may prohibit research which presents unacceptable hazards or otherwise fails to comply with USAID procedures. Informed consent documents must include the stipulation that the subject's records may be subject to such review.

(END OF STANDARD PROVISION)

8. CARE OF LABORATORY ANIMALS (NOVEMBER 1985)

(This provision is applicable when laboratory animals are involved in research performed in the U.S. and financed by the award.)

(a) Before undertaking performance of any grant involving the use of laboratory animals, the recipient shall register with the Secretary of Agriculture of the United States in accordance with Section 6, Public Law 89-544, Laboratory Animal Welfare Act, August 24, 1966, as amended by Public Law 91-579, Animal Welfare Act of 1970, December 24, 1970. The recipient shall furnish evidence of such registration to the Agreement Officer.

(c) In the care of any live animals used or intended for use in the performance of this grant, the recipient shall adhere to the principles enunciated in the Guide for Care and Use of Laboratory Animals prepared by the Institute of Laboratory Animals Resources, National Academy of Sciences - National Research Council, and in the United States Department of Agriculture's (USDA) regulations and standards issued under the Public Laws enumerated in a. above. In case of conflict between standards, the higher standard shall be used. The recipient's reports on portions of the award in which animals were used shall contain a certificate stating that the animals were cared for in accordance with the principles enunciated in the Guide for Care and Use of Laboratory Animals prepared by the Institute of Laboratory Animal Resources, NAS-NRC, and/or in the regulations and standards as promulgated by the Agricultural Research Service, USDA, pursuant to the Laboratory Animal Welfare Act of 24 August 1966, as amended (P.L. 89-544 and P.L. 91-579). NOTE: The recipient may request registration of the recipient's facility and a current listing of licensed dealers from the Regional Office of the Animal and Plant Health Inspection Service (APHIS), USDA, for the region in which the recipient's research facility is located. The location of the appropriate APHIS Regional Office as well as information concerning this program may be obtained by contacting the Senior Staff Office, Animal Care Staff, USDA/APHIS, Federal Center Building, Hyattsville, Maryland 20782.

All such property shall be under the custody and control of recipient until the owner of title directs otherwise or completion of work under this award or its termination, at which time custody and control shall be turned over to the owner of title or disposed of in accordance with its instructions. - (i) disclosure of need for and the performance of preventive maintenance,
- (ii) disclosure and reporting of need for capital type rehabilitation, and

The recipient shall not be liable for any loss of or damage to the cooperating country property, or for expenses incidental to such loss or damage except that the recipient shall be responsible for any such loss or damage (including expenses incidental thereto):

Which results from willful misconduct or lack of good faith on the part of any of the recipient's directors or officers, or on the part of any of its

managers, superintendents, or other equivalent representatives, who have supervision or direction of all or substantially all of the recipient's business, or all or substantially all of the recipient's operation at any one plant, laboratory, or separate location in which this award is being performed;

(ii) Which results from a failure on the part of the recipient, due to the willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in (i) above:

(A) to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection, and preservation of cooperating country property as required by (i) above, or

(B) to take all reasonable steps to comply with any appropriate written directions of the Agreement Officer under (b) above;

(iii) For which the recipient is otherwise responsible under the express terms designated in the schedule of this award;

(vi) Which results from a risk expressly required to be insured under some other provision of this award, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or

(v) Which results from a risk which is in fact covered by insurance or for which the grantee is otherwise reimbursed, but only to the extent of such insurance or reimbursement;

(vi) Provided, that, if more than one of the above exceptions shall be applicable in any case, the recipient's liability under any one exception shall not be limited by any other exception.

(2) The recipient shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provision for a reserve, covering the risk of loss of or damage to the cooperating country property, except to the extent that USAID may have required the recipient to carry such insurance under any other provision of this award.

(3) Upon the happening of loss or destruction of or damage to the cooperating country property, the recipient shall notify the Agreement Officer thereof, shall take all reasonable steps to protect the cooperating country property from further damage, separate the damaged and undamaged cooperating country property, put all the cooperating country property in the best possible order, and furnish to the Agreement Officer a statement of:

(5) In the event the recipient is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the cooperating country property, it shall use the proceeds to repair, renovate or replace the cooperating country property involved, or shall credit such proceeds against the cost of the work covered by the award, or shall otherwise reimburse USAID, as directed by the Agreement Officer. The recipient shall do nothing to prejudice USAID's right to recover against third parties for any such loss, destruction, or damage, and upon the request of the Agreement Officer, shall, at the Government's expense, furnish to USAID all reasonable assistance and cooperation (including assistance in the prosecution of suits and the execution of instruments or assignments in favor of the Government) in obtaining recovery.

(e) Access: USAID, and any persons designated by it, shall at all reasonable times have access to the premises wherein any cooperating country property is located, for the purpose of inspecting the cooperating country property.

(f) Final Accounting and Disposition of Cooperating Country Property: Within 90 days after completion of this award, or at such other date as may be fixed by the Agreement Officer, the recipient shall submit to the Agreement Officer an inventory schedule covering all items of equipment, materials and supplies under the recipient's custody, title to which is in the cooperating country or public or private agency designated by the cooperating country, which have not been consumed in the performance of this award. The recipient shall also indicate what disposition has been made of such property.

(g) Communications: All communications issued pursuant to this provision shall be in writing.

(END OF STANDARD PROVISION)

10. PUBLIC NOTICES (AUGUST 1992)

(This provision is applicable when the cognizant Activity Manager or SO Team determines that the award is of public interest and requests that the provision be included in the award.)

It is USAID's policy to inform the public as fully as possible of its programs and activities. The recipient is encouraged to give public notice of the receipt of this award and, from time to time, to announce progress and accomplishments. Press releases or other public notices should include a statement substantially as follows:

"The U.S. Agency for International Development administers the U.S. foreign assistance program providing economic and humanitarian assistance in more than 80 countries worldwide."

The recipient may call on USAID's Office of External Affairs for advice regarding public notices. The recipient is requested to provide copies of notices or announcements to the cognizant technical officer and to USAID's Office of External Affairs as far in advance of release as possible.

(END OF STANDARD PROVISION)

11. RIGHTS IN DATA (AUGUST 1992)

(This provision is applicable whenever data will be produced under the award.)

(a) Definitions

"Data" means recorded information (including information relating to the research, testing, or development of any drug or device requiring approval for use in the United States), regardless of form or the media on which it may be recorded. In the aggregate these data may be in the form of reports, articles, manuals, or publications. The term includes technical data and computer software. The term does not include financial reports or other information incidental to award administration.

"Form, fit and function data" means data relating to items, components, or processes that are sufficient to enable physical and functional interchangeability, as well as data identifying source, size, configuration, mating, and attachment characteristics, functional characteristics, and performance requirements but specifically excludes the source code, algorithm, process, formulae, and flow charts of the software.

"Limited rights" means the rights of the Government in limited rights data as set forth in the following Limited Rights Notice:

-- "These data are submitted with limited rights. These data may be reproduced and used by the Government with the limitation that they will not, without written permission of the recipient, be used for purposes of manufacture nor disclosed outside the Government.

-- "This Notice shall be marked on any reproduction of these data, in whole or in part."

"Limited rights data" means data (other than computer software) that embody trade secrets, or are commercial or financial and confidential or privileged, to the extent that such data pertain to items, components, or processes developed at private expense, including minor modifications thereof.

"Restricted computer software" means computer software developed at private expense and that is a trade secret; is commercial or financial and is confidential or privileged; or is published copyrighted computer software, including minor modifications of such computer software.

"Technical data" means data (other than computer software) which are of a scientific or technical nature.

- (i) Data first produced in performance of this award;
- (ii) Form, fit and function data delivered under this award;
- (iii) Data delivered under this award (except for restricted computer software) that constitutes manuals or instructional and training material for installation, operation or routine maintenance and repair of items, components, or processes delivered or furnished for use under this award; and
- (iv) All other data delivered under this award unless provided otherwise for limited rights data or restricted computer software in accordance with paragraph (d) of this provision.

(2) The recipient shall have the right to --

- (i) Use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the recipient in the performance of this award;
- (ii) Protect from unauthorized disclosure and use those data which are limited rights data or restricted computer software to the extent provided in paragraph (d) of this provision;
- (iii) Substantiate use of, add or correct limited rights, restricted rights, or copyright notices;

The recipient may establish, without prior approval of USAID, claim to copyright subsisting in scientific and technical articles based on or containing data first produced in the performance of this award and published in academic, technical or professional journals, symposia proceedings or similar works. The prior express written permission of USAID is required to establish claim to copyright subsisting in all other data first produced in performance of this award. For computer software and other data the recipient awards to the Government, and others acting on its behalf, a paid-up nonexclusive, irrevocable worldwide license in such copyrighted data to reproduce, prepare derivative works and display publicly by or on behalf of the Government.

(2) Data not first produced in the performance of this Grant. The recipient shall not, without prior written permission of USAID incorporate in data delivered under this award any data not first produced in the performance under this award and which contains the copyright notice of 17 U.S.C. 401 or 402, unless the grantee identifies such data and awards to the Government, or acquires on its behalf, a license of the same scope as set forth above in paragraph (c).

(3) Removal of copyright notices. The Government agrees not to remove any copyright notices placed on data delivered under this award and to include such notice on all reproductions of such data.

(d) Protection of limited rights data and restricted computer software

When data other than that listed in subparagraph (b)(1)(i), (ii) and (iii) of this provision are specified to be delivered under this award and qualify as either limited rights data or restricted computer software, if the recipient desires to continue protection of such data, the recipient shall withhold such data and not furnish them to the Government under this award. As a condition to this withholding, the recipient shall identify the data being withheld and furnish form, fit, and function data in lieu thereof.

(e) Subagreements

The recipient has the responsibility to obtain from subgrantees and those who work in collaboration with the recipient in performance of this award all data and rights necessary to fulfill the recipient's obligations under this award. If a subrecipient or collaborator refuses to accept terms affording the Government such rights, the recipient shall promptly bring such refusal to the attention of USAID and not proceed without authorization from USAID.

(f) Relationship to patents

Nothing contained in this provision shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right granted to the Government.

12. COMMUNICATIONS PRODUCTS (October 1994)

(a) Definition - Communications products are any printed material (other than non-color photocopy material), photographic services or video production services.

(End of Standard Provision)

13. COST SHARING (MATCHING) (April 1998)

(This provision, along with 22 CFR 226., is applicable when the recipient has agreed or is required to cost share or provide a matching share.)

(a) If at the end of any year (or funding period) hereunder, the recipient has expended an amount of non-Federal funds less than the agreed upon amount or percentage of total expenditures, the difference may be applied to reduce the amount of USAID incremental funding the following year (or funding period), or, if the award has expired or has been terminated, the difference shall be refunded to USAID.

(b) The source, origin and nationality requirements and the restricted goods provision established in the Standard Provision entitled "USAID Eligibility Rules for Goods and Services" do not apply to cost sharing (matching) expenditures.

14. PROHIBITION ON THE USE OF FEDERAL FUNDS TO PROMOTE, SUPPORT, OR ADVOCATE FOR THE LEGALIZATION OR PRACTICE OF PROSTITUTION - ASSISTANCE (JULY 2004)

(a) The U.S. Government is opposed to prostitution and related activities, which are inherently harmful and dehumanizing, and contribute to the phenomenon of trafficking in persons. None of the funds made available under this agreement may be used to promote, support, or advocate the legalization or practice of prostitution. Nothing in the preceding sentence shall be construed to preclude assistance designed to ameliorate the suffering of, or health risks to, victims while they are being trafficked or after they are out of the situation that resulted from such victims being trafficked.

(b) [This subsection (b) only applies to foreign non-governmental organizations and PIOs receiving U.S. Government funds to carry out programs that target victims of severe forms of trafficking as either prime awardees or subawardees.]

(1) For programs that target victims of severe forms of trafficking, as a condition of entering into this agreement or subagreement, the recipient/subrecipient agrees that in its activities outside of the United States and its possessions it does not promote, support, or advocate the legalization or practice of prostitution. The preceding sentence shall not apply to organizations that provide services to individuals solely after they are no longer engaged in activities that resulted from such victims being trafficked.

(2) The following definitions apply for purposes of this clause:

FOREIGN NON-GOVERNMENTAL ORGANIZATION – The term “foreign non-governmental organization” means an entity that is not organized under the laws of any State of the United States, the District of Columbia or the Commonwealth of Puerto Rico.

SEVERE FORMS OF TRAFFICKING IN PERSONS. -- The term “severe forms of trafficking in persons” means—

(A) sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or

(B) the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

(c) The recipient shall insert this provision in all sub-agreements under this award.

(d) This provision includes express terms and conditions of the agreement and any violation of it shall be grounds for unilateral termination, in whole or in part, of the agreement by USAID prior to the end of its term.”

**PART V - MANDATORY STANDARD PROVISIONS FOR U.S.,
NONGOVERNMENTAL RECIPIENTS WHEN ACTIVITIES ARE UNDERTAKEN
OUTSIDE THE U.S.**

1. REGULATIONS GOVERNING EMPLOYEES (AUGUST 1992)

(The following applies to the recipient's employees working in the cooperating country under the agreement who are not citizens of the cooperating country.)

(a) The recipient's employees shall maintain private status and may not rely on local U.S. Government offices or facilities for support while under this grant.

(b) The sale of personal property or automobiles by recipient employees and their dependents in the foreign country to which they are assigned shall be subject to the same limitations and prohibitions which apply to direct-hire USAID personnel employed by the Mission, including the rules contained in 22 CFR Part 136, except as this may conflict with host government regulations.

(c) Other than work to be performed under this award for which an employee is assigned by the recipient, no employee of the recipient shall engage directly or indirectly, either in the individual's own name or in the name or through an agency of another person, in any business, profession, or occupation in the foreign countries to which the individual is assigned, nor shall the individual make loans or investments to or in any business, profession or occupation in the foreign countries to which the individual is assigned.

(d) The recipient's employees, while in a foreign country, are expected to show respect for its conventions, customs, and institutions, to abide by its applicable laws and regulations, and not to interfere in its internal political affairs.

(e) In the event the conduct of any recipient employee is not in accordance with the preceding paragraphs, the recipient's chief of party shall consult with the USAID Mission Director and the employee involved and shall recommend to the recipient a course of action with regard to such employee.

(f) The parties recognize the rights of the U.S. Ambassador to direct the removal from a country of any U.S. citizen or the discharge from this grant award of any third country national when, in the discretion of the Ambassador, the interests of the United States so require.

If it is determined, either under (e) or (f) above, that the services of such employee should be terminated, the recipient shall use its best efforts to cause the return of such employee to the United States, or point of origin, as appropriate.

**2. CONVERSION OF UNITED STATES DOLLARS TO LOCAL CURRENCY
(NOVEMBER 1985)**

Upon arrival in the Cooperating Country, and from time to time as appropriate, the recipient's chief of party shall consult with the Mission Director who shall provide, in

writing, the procedure the recipient and its employees shall follow in the conversion of United States dollars to local currency. This may include, but is not limited to, the conversion of currency through the cognizant United States Disbursing Officer or Mission Controller, as appropriate.

3. USE OF POUCH FACILITIES (AUGUST 1992)

(a) Use of diplomatic pouch is controlled by the Department of State. The Department of State has authorized the use of pouch facilities for USAID recipients and their employees as a general policy, as detailed in items (1) through (6) below. However, the final decision regarding use of pouch facilities rest with the Embassy or USAID Mission. In consideration of the use of pouch facilities, the recipient and its employees agree to indemnify and hold harmless, the Department of State and USAID for loss or damage occurring in pouch transmission:

(1) Recipients and their employees are authorized use of the pouch for transmission and receipt of up to a maximum of .9 kgs per shipment of correspondence and documents needed in the administration of assistance programs.

(2) U.S. citizen employees are authorized use of the pouch for personal mail up to a maximum of .45 kgs per shipment (but see (a)(3) below).

(3) Merchandise, parcels, magazines, or newspapers are not considered to be personal mail for purposes of this standard provision and are not authorized to be sent or received by pouch.

(4) Official and personal mail pursuant to a.1. and 2. above sent by pouch should be addressed as follows:

Name of individual or organization (followed by
letter symbol "G")
City Name of post (USAID/_____)
Agency for International Development
Washington, D.C. 20523-0001

(5) Mail sent via the diplomatic pouch may not be in violation of U.S. Postal laws and may not contain material ineligible for pouch transmission.

(6) Recipient personnel are not authorized use of military postal facilities (APO/FPO). This is an Adjutant General's decision based on existing laws and regulations governing military postal facilities and is being enforced worldwide.

(b) The recipient shall be responsible for advising its employees of this authorization, these guidelines, and limitations on use of pouch facilities.

(c) Specific additional guidance on grantee use of pouch facilities in accordance with this standard provision is available from the Post Communication Center at the Embassy or USAID Mission.

4. INTERNATIONAL AIR TRAVEL AND TRANSPORTATION (DECEMBER 1995)

(This provision is applicable when costs for international travel or transportation will be paid for with USAID funds. This provision is not applicable if the recipient is providing for travel with private funds as part of a cost-sharing requirement, or with Program Income generated under the award.)

(a) PRIOR BUDGET APPROVAL

In accordance with OMB Cost Principles, direct charges for foreign travel costs are allowable only when each foreign trip has received prior budget approval. Such approval will be deemed to have been met when:

(1) the trip is identified. Identification is accomplished by providing the following information: the number of trips, the number of individuals per trip, and the destination country(s).

(2) the information noted at (a)(1) above is incorporated in: the proposal, the program description or schedule of the award, the implementation plan (initial or revisions), or amendments to the award; and

(3) the costs related to the travel are incorporated in the approved budget of the award.

The Agreement Officer may approve travel which has not been incorporated in writing as required by paragraph (a)(2). In such case, a copy of the Agreement Officer's approval must be included in the agreement file.

(b) NOTIFICATION

(1) As long as prior budget approval has been met in accordance with paragraph (a) above, a separate Notification will not be necessary unless:

(i) the primary purpose of the trip is to work with USAID Mission personnel, or

(ii) the recipient expects significant administrative or substantive programmatic support from the Mission.

Neither the USAID Mission nor the Embassy will require Country Clearance of employees or contractors of USAID Recipients.

(2) Where notification is required in accordance with paragraph (1)(i) or (ii) above, the recipient will observe the following standards:

(i) Send a written notice to the cognizant USAID Technical Office in the Mission. If the recipient's primary point of contact is a Technical Officer in USAID/W, the recipient may send the notice to that person. It will be the responsibility of the USAID/W Technical Officer to forward the notice to the field.

(ii) The notice should be sent as far in advance as possible, but at least 14 calendar days in advance of the proposed travel. This notice may be sent by fax or e-mail. The recipient should retain proof that notification was made.

(iii) The notification shall contain the following information: the award number, the cognizant Technical Officer, the traveler's name (if known), date of arrival, and the purpose of the trip.

(iv) The USAID Mission will respond only if travel has been denied. It will be the responsibility of the Technical Officer in the Mission to contact the recipient within 5 working days of having received the notice if the travel is denied. If the recipient has not received a response within the time frame, the recipient will be considered to have met these standards for notification, and may travel.

(v) If a subrecipient is required to issue a Notification, as per this section, the subrecipient may contact the USAID Technical Officer directly, or the prime may contact USAID on the subrecipient's behalf.

(c) SECURITY ISSUES

Recipients are encouraged to obtain the latest Department of State Travel Advisory Notices before traveling. These Notices are available to the general public and may be obtained directly from the State Department, or via Internet.

Where security is a concern in a specific region, recipients may

choose to notify the US Embassy of their presence when they have entered the country. This may be especially important for long-term posting.

(d) USE OF U.S.-OWNED LOCAL CURRENCY

Travel to certain countries shall, at USAID's option, be funded from U.S.-owned local currency. When USAID intends to exercise this option, USAID will either issue a U.S. Government S.F. 1169, Transportation Request (GTR) which the grantee may exchange for tickets, or issue the tickets directly. Use of such U.S.-owned currencies will constitute a dollar charge to this grant.

(e) THE FLY AMERICA ACT

(1) The Fly America Act requires that all air travel and shipments under this award must be made on U.S. flag air carriers to the extent service by such carriers is available. The Comptroller General of the United States, by Decision B-138942 of June 17, 1975, as amended March 31, 1981, provided guidelines for implementation of Section 5 of the International Air Transportation Fair Competitive Practices Act (Fly America Act) of 1974 (49 U.S.C. 1517, as amended by Section 21 of Public Law 96-192).

(2) U.S. flag air carrier service is considered available even though:

(i) Comparable or a different kind of service can be provided at less cost by a foreign air carrier;

(ii) Foreign air carrier service is preferred by or is more convenient for the agency or traveler; or

(iii) Service by a foreign air carrier can be paid for in excess foreign currency, unless U.S. flag air carriers decline to accept excess or near excess foreign currencies for transportation payable only out of such monies.

(3) In determining availability of a U.S. flag air carrier, the following scheduling principles should be followed unless their application results in the last or first leg of travel to or from the United States being performed by foreign air carrier:

(i) U.S. flag air carrier service available at point of origin shall be used to destination or in the absence of direct or through service to the farthest interchange point on a usually traveled route;

(ii) Where an origin or interchange point is not served by

U.S. flag air carrier, a foreign air carrier shall be used only to the nearest interchange point on a usually traveled route to connect with U.S. flag air carrier service; or

(iii) Where a U.S. flag air carrier involuntarily reroutes the traveler via a foreign air carrier, the foreign air carrier may be used notwithstanding the availability of alternative U.S. flag air carrier service.

(4) Travel to and from the United States: For travel between a gateway airport in the United States (the last U.S. airport from which the traveler's flight departs or the first U.S. airport at which the traveler's flight arrives) and a gateway airport abroad (that airport from which the traveler last embarks enroute to the U.S. or at which the traveler first debarks incident to travel from the U.S.), passenger service by U.S. flag air carrier will not be considered available if:

(i) the gateway airport abroad is the traveler's origin or destination airport, and the use of U.S. flag air carrier service would extend the time in a travel status including delay at origin and accelerated arrival at destination, by at least 24 hours more than travel by foreign air carrier; or

(ii) the gateway airport abroad is an interchange point, and the use of U.S. flag air carrier service would require the traveler to wait six hours or more to make connections at that point or, delayed departure from or accelerated arrival at the gateway airport in the U.S. would extend the time in a travel status by at least six hours more than travel by foreign air carrier.

(5) Travel Between Points Outside the United States: Use of a foreign-flag air carrier is permissible if:

(i) Travel by foreign air carrier would eliminate two or more aircraft changes enroute;

(ii) Where one of the two points abroad is the gateway airport enroute to or from the United States and the use of a U.S. flag air carrier would extend the time in a

travel status by at least six hours more than travel by foreign air carrier; including accelerated arrival at the overseas destination or delayed departure from the overseas origin as well as delay at the gateway airport or other interchange point abroad; or

(iii) The travel is not part of a trip to or from the United States and the use of a U.S. flag air carrier would extend the time in a travel status by at least six hours more than travel by foreign air carrier including delay at origin, delay enroute and accelerated arrival at destination.

(6) **Short Distance Travel:** Use of a foreign-flag air carrier is permissible, regardless of origin and destination, if the elapsed travel time on a scheduled flight from origin to destination airport by a foreign flag air carrier is three hours or less and service by a US flag air carrier would double the travel time.

(7) Use of foreign air carrier service may be deemed necessary if a U.S. flag air carrier otherwise available cannot provide the foreign air transportation needed, or if use of such service will not accomplish the agency's mission. Travel and transportation on non-free world air carriers are not reimbursable under this award.

(8) Where U.S. Government funds are used for reimbursement on other than U.S. flag air carriers for international transportation, the recipient shall include a certification in their own files involving such transportation which is essentially as follows:

"CERTIFICATION OF UNAVAILABILITY OF U.S. FLAG AIR CARRIERS. I hereby certify that the transportation service for personnel (and their personal effects) or property by certificated air carrier was unavailable for the following reason(s)."
(State appropriate reason(s) as set forth above).

(f) **COST PRINCIPLES**

The recipient will be reimbursed for travel and the reasonable cost of subsistence, post differentials and other allowances paid to employees in international travel status in accordance with the recipient's applicable cost principles and established policies and practices which are uniformly applied to federally financed and other activities of the grantee.

If the recipient does not have written established policies regarding travel costs, the standard for determining the reasonableness of reimbursement for overseas allowance will be the Standardized Regulations (Government Civilians, Foreign Areas), published by the U.S. Department of State, as from time to time amended. The most current subsistence, post differentials, and other allowances may be obtained from the Agreement Officer.

5. OCEAN SHIPMENT OF GOODS (APRIL 1998)

(This provision is applicable when goods purchased with funds provided under this award are transported to cooperating countries on ocean vessels whether or not award funds are used for the transportation.)

(a) At least 50% of the gross tonnage of all goods purchased under

this agreement and transported to the cooperating countries shall be made on privately owned U.S. flag commercial ocean vessels, to the extent such vessels are available at fair and reasonable rates for such vessels.

(b) At least 50% of the gross freight revenue generated by shipments of goods purchased under this agreement and transported to the cooperating countries on dry cargo liners shall be paid to or for the benefit of privately owned U.S. flag commercial ocean vessels to the extent such vessels are available at fair and reasonable rates for such vessels.

(c) When U.S. flag vessels are not available, or their use would result in a significant delay, the grantee may request a determination of non-availability from the USAID Transportation Division, Office of Procurement, Washington, D.C. 20523, giving the basis for the request which will relieve the grantee of the requirement to use U.S. flag vessels for the amount of tonnage included in the determination. Shipments made on non-free world ocean vessels are not reimbursable under this grant.

(d) The recipient shall send a copy of each ocean bill of lading, stating all of the carrier's charges including the basis for calculation such as weight or cubic measurement, covering a shipment under this agreement to:

U.S. Department of Transportation, Maritime Administration, Division
of National Cargo, 400 7th Street, S.W., Washington, DC 20590, and

U.S. Agency for International Development,
Office of Procurement, Transportation Division
1300 Pennsylvania Avenue, N.W.
Washington, DC 20523-7900

(e) Shipments by voluntary nonprofit relief agencies (i.e., PVOs) shall be governed by this standard provision and by USAID Regulation 2, "Overseas Shipments of Supplies by Voluntary Nonprofit Relief Agencies" (22 CFR Part 202).

(f) Shipments financed under this grant must meet applicable eligibility requirements set out in 22 CFR 228.21.

6. LOCAL PROCUREMENT (April 1998)

(a) Financing local procurement involves the use of appropriated funds to finance the procurement of goods and services supplied by local businesses, dealers or producers, with payment normally being in the currency of the cooperating country.

(b) Locally financed procurements must be covered by source and nationality waivers as set forth in 22 CFR 228, Subpart F, except as provided for in mandatory standard provision, "USAID Eligibility Rules for Goods and Services," or when one of the following exceptions applies:

(1) Locally available commodities of U.S. origin, which are otherwise eligible for financing, if the value of the transaction is estimated not to exceed \$100,000 exclusive of transportation costs.

(2) Commodities of geographic code 935 origin if the value of the transaction does not exceed the local currency equivalent of \$5,000.

(3) Professional Services Contracts estimated not to exceed \$250,000.

(4) Construction Services Contracts estimated not to exceed \$5,000,000.

(5) Commodities and services available only in the local economy (no specific per transaction value applies to this category). This category includes the following items:

(i) Utilities including fuel for heating and cooking, waste disposal and trash collection;

(ii) Communications - telephone, telex, fax, postal and courier services;

(iii) Rental costs for housing and office space;

(iv) Petroleum, oils and lubricants for operating vehicles and equipment;

(v) Newspapers, periodicals and books published in the cooperating country;

(vi) Other commodities and services and related expenses that, by their nature or as a practical matter, can only be acquired, performed, or incurred in the cooperating country, e.g., vehicle maintenance, hotel accommodations, etc.

(c) The coverage on ineligible and restricted goods and services in the mandatory standard provision entitled, "USAID Eligibility Rules for Goods and Services," also apply to local procurement.

(d) This provision will be included in all subagreements where local procurement of goods or services is a supported element.

**PART VI - MANDATORY STANDARD PROVISIONS FOR NON-U.S.,
NONGOVERNMENTAL RECIPIENTS**

1. APPLICABILITY OF 22 CFR PART 226 (May 2005)

(a) All provisions of 22 CFR Part 226 and all Standard Provisions attached to this agreement are applicable to the recipient and to subrecipients which meet the definition of "Recipient" in Part 226, unless a section specifically excludes a subrecipient from coverage. The recipient shall assure that subrecipients have copies of all the attached standard provisions.

(b) For any subawards made with Non-US subrecipients the Recipient shall include the applicable "Standard Provisions for Non-US Nongovernmental Grantees." Recipients are required to ensure compliance with subrecipient monitoring procedures in accordance with OMB Circular A-133.

2. ALLOWABLE COSTS (OCTOBER 1998)

(a) The recipient shall be reimbursed for costs incurred in carrying out the purposes of this award which are determined by the Agreement Officer to be reasonable, allocable, and allowable in accordance with the terms of this award and the applicable* cost principles in effect on the date of this award. The recipient may obtain a copy from the Agreement Officer. Brief definitions of what may be considered as reasonable, allocable, and allowable costs are provided below, however, it is the recipient's responsibility to ensure that costs incurred are in accordance with the applicable set of Cost Principles.

(1) Reasonable. Shall mean those costs which are generally recognized as ordinary and necessary and would be incurred by a prudent person in the conduct of normal business.

(2) Allocable Costs. Shall mean those costs which are incurred specifically for the award.

(3) Allowable Costs. Shall mean those costs which conform to any limitations in the award.

(b) Prior to incurring a questionable or unique cost, the recipient shall obtain the Agreement Officer's written determination on whether the cost will be allowable.

(c) It is USAID policy that no funds shall be paid as profit or fee to a recipient under this agreement or any subrecipient. This restriction does not apply to contractual relationships under this agreement.

*NOTE: For educational institutions use OMB Circular A-21; for all other non-profit organizations use OMB Circular A-122; and for profit making firms use Federal Acquisition Regulation 31.2 and USAID Acquisition Regulation 731.2.

3. USAID DISABILITY POLICY – ASSISTANCE (December 2004)

(a) The objectives of the USAID Disability Policy are (1) to enhance the attainment of United States foreign assistance program goals by promoting the participation and equalization of opportunities of individuals with disabilities in USAID policy, country and sector strategies, activity designs and implementation; (2) to increase awareness of issues of people with disabilities both within USAID programs and in host countries; (3)

to engage other U.S. government agencies, host country counterparts, governments, implementing organizations and other donors in fostering a climate of nondiscrimination against people with disabilities; and (4) to support international advocacy for people with disabilities. The full text of the policy paper can be found at the following website:

<http://www.usaid.gov/about/disability/DISABPOL.FIN.html>.

(b) USAID therefore requires that the recipient not discriminate against people with disabilities in the implementation of USAID funded programs and that it make every effort to comply with the objectives of the USAID Disability Policy in performing the program under this grant or cooperative agreement. To that end and to the extent it can accomplish this goal within the scope of the program objectives, the recipient should demonstrate a comprehensive and consistent approach for including men, women and children with disabilities.

4. PROHIBITION ON THE USE OF FEDERAL FUNDS TO PROMOTE, SUPPORT, OR ADVOCATE FOR THE LEGALIZATION OR PRACTICE OF PROSTITUTION - ASSISTANCE (JULY 2004)

(a) The U.S. Government is opposed to prostitution and related activities, which are inherently harmful and dehumanizing, and contribute to the phenomenon of trafficking in persons. None of the funds made available under this agreement may be used to promote, support, or advocate the legalization or practice of prostitution. Nothing in the preceding sentence shall be construed to preclude assistance designed to ameliorate the suffering of, or health risks to, victims while they are being trafficked or after they are out of the situation that resulted from such victims being trafficked.

(b) [This subsection (b) only applies to foreign non-governmental organizations and PIOs receiving U.S. Government funds to carry out programs that target victims of severe forms of trafficking as either prime awardees or subawardees.]

(1) For programs that target victims of severe forms of trafficking, as a condition of entering into this agreement or subagreement, the recipient/subrecipient agrees that in its activities outside of the United States and its possessions it does not promote, support, or advocate the legalization or practice of prostitution. The preceding sentence shall not apply to organizations that provide services to individuals solely after they are no longer engaged in activities that resulted from such victims being trafficked.

(2) The following definitions apply for purposes of this clause:

FOREIGN NON-GOVERNMENTAL ORGANIZATION – The term “foreign non-governmental organization” means an entity that is not organized under the laws of any State of the United States, the District of Columbia or the Commonwealth of Puerto Rico.

SEVERE FORMS OF TRAFFICKING IN PERSONS. -- The term “severe forms of trafficking in persons” means—

(A) sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or

(B) the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

(c) The recipient shall insert this provision in all sub-agreements under this award.

(d) This provision includes express terms and conditions of the agreement and any violation of it shall be grounds for unilateral termination, in whole or in part, of the agreement by USAID prior to the end of its term."

5. ACCOUNTING, AUDIT, AND RECORDS (OCTOBER 1998)

(a) The recipient shall maintain financial records, supporting documents, statistical records and all other records pertinent to the award in accordance with generally accepted accounting principles formally prescribed by the U.S., the cooperating country, or the International Accounting Standards Committee (an affiliate of the International Federation of Accountants) to sufficiently substantiate charges to this award. Accounting records that are supported by documentation will as a minimum be adequate to show all costs incurred under the award, receipt, and use of goods and services acquired under the award, the costs of the program supplied from other sources, and the overall progress of the program. Unless otherwise notified, the recipient records and subrecipient records which pertain to this award shall be retained for a period of three years from the date of submission of the final expenditure report and may be audited by USAID and/or its representatives.

(b) Foreign for-profit and non-profit organizations that expend \$300,000 or more per their fiscal year in "USAID awards", i.e. as recipients or subrecipients of USAID grants or cooperative agreements, or as cost reimbursable subcontractors of USAID grants or cooperative agreements, shall have an annual audit conducted in accordance with the "Guidelines for Financial Audits Contracted by Foreign Recipients" issued by the USAID Inspector General.

(c) Foreign for-profit and non-profit organizations expending less than \$300,000 per their fiscal year under USAID cost-reimbursable contracts, grants, cooperative agreements, or agreements with host governments shall be exempt from the above financial audit requirements, but are subject to the requirement to make records available upon request for review by USAID officials or their designees.

(d) USAID shall retain the right to conduct a financial review, require an audit, or otherwise ensure adequate accountability of organizations expending USAID funds regardless of the audit requirement.

(e) Foreign organizations that provide USAID resources to other organizations to carry out the USAID program and activities shall be responsible for monitoring their subcontractors or subgrantees. Allowable costs for limited scope subrecipient audits charged to USAID funds shall be limited to one or more of the following types of compliance requirements: activities allowed or unallowed; allowable costs/cost principles; eligibility; matching, level of effort; earmarking; and reporting.

(f) The audit report shall be submitted to USAID within 30 days after completion of the audit; the audit shall be completed, and the report submitted, not later than 9 months after the close of the recipient's fiscal year. The USAID Inspector General will review this report to determine whether it complies with the audit requirements of this award. No audit costs may be charged to this award if audits have not been made in accordance with the terms of this provision. In cases of continued inability or unwillingness to have

an audit performed in accordance with the terms of this provision, USAID will consider appropriate sanctions which may include suspension of all or a percentage of disbursements until the audit is satisfactorily completed.

(g) This provision in its entirety shall be incorporated into all subawards with non-U.S. organizations which meet the \$300,000 threshold as described at paragraph (b) of this Provision. Subawards to non-U.S. organizations which are for more than \$10,000 but do not meet the \$300,000 threshold shall at a minimum incorporate paragraph (d) of this Provision. Subawards of grants and cooperative agreements made to U.S. organizations shall state that the U.S. organization is subject to the audit requirements contained in OMB Circular A-133.

6. PAYMENT ADVANCES AND REFUNDS (OCTOBER 1998)

(a) Recipients shall maintain advances of USAID funds in interest bearing accounts, unless:

- (1) the recipient receives less than \$120,000 in U.S. Government awards per year;
- (2) the best reasonably available interest bearing account would not be expected to earn interest in excess of \$250 per year on U.S. Government cash balances; or
- (3) the depository would require an average or minimum balance so high that it would not be practical to maintain the advance in an interest bearing account.

(b) Interest earned on advances will be remitted to USAID. However, the recipient may retain up to \$250 of interest earnings per account per year, for administrative expenses.

(c) At the time the award expires or is terminated, the following types of funds shall immediately revert to USAID:

- (1) USAID has obligated funds to the award, but has not disbursed them to the recipient; or
- (2) USAID has advanced funds to the recipient, but the recipient has not expended them.

Notwithstanding (c) (1) and (2) above, funds which the recipient has obligated in legally binding transactions applicable to this award will not revert to USAID.

(d) USAID reserves the right to require refund by the recipient of any amount which the recipient did not spend in accordance with the terms and conditions of this award. In the event that a final audit has not been performed prior to the closeout of this award, USAID retains the right to a refund until all claims which may result from the final audit have been resolved between USAID and the recipient.

7. REVISION OF AWARD BUDGET (OCTOBER 1998)

(a) The approved award budget is the financial expression of the recipient's program as approved during the award process.

(b) The recipient is required to report deviations from budget and program plans, and request prior approvals from the Agreement Officer for any of the following reasons:

- (1) To change the scope or the objectives of the project and/or revise the funding allocated among project objectives.
- (2) To change a key person where specified in the award, or allow a 25% reduction in time devoted to the project.
- (3) Additional funding is needed.
- (4) Where indirect costs have been authorized, the recipient plans to transfer funds budgeted for indirect costs to absorb increases in direct costs or vice versa.
- (5) The inclusion of costs that require prior approval in accordance with the applicable set of Cost Principles.

- (6) The transfer of funds allotted for training allowances (direct payment to trainees) to other categories of expense.
- (7) The recipient intends to contract or subaward any of the work under this award, and such contracts or subawards were not included in the approved award budget.
- (c) If specified in the Schedule of the award, the recipient may be further restricted from transferring funds among cost categories. Such a restriction would require the recipient to get the prior approval of the Agreement Officer before making budget shifts which expect to exceed 10% of the total budget.
- (d) USAID is under no obligation to reimburse the recipient for costs incurred in excess of the total amount obligated under the award. If the total obligated amount under the award has been increased, the Agreement Officer will notify the recipient in writing of the increase and specify the new total obligated award amount.

8. TERMINATION AND SUSPENSION (OCTOBER 1998)

- (a) The Agreement Officer may terminate this award at any time, in whole or in part, upon written notice to the recipient, whenever it is determined that the recipient has materially failed to comply with the terms and conditions of the award.
- (b) This award may be terminated at any time, in whole or in part, by the Agreement Officer with the consent of the recipient. Both parties shall agree upon termination conditions, including the effective date and, in the case of partial terminations, the portion of the award to be terminated. The agreement to terminate shall be set forth in a letter from the Agreement Officer to the recipient.
- (c) This award may be terminated at any time in whole or in part by the recipient upon sending written notification to the Agreement Officer with the following information: the reasons for the termination, the effective date, and, in the case of a partial termination, the portion to be terminated. However, if USAID determines in the case of partial termination that the reduced or modified portion of the award will not accomplish the purposes for which the award was made, USAID may terminate the award in its entirety in accordance with paragraphs (a) or (b) above.
- (d) If at any time USAID determines that continuation of all or part of the funding for a program should be suspended or terminated because such assistance would not be in the national interest of the United States or would be in violation of an applicable law, then USAID may, following notice to the recipient, suspend or terminate this award in whole or part and prohibit the recipient from incurring additional obligations chargeable to this award other than those costs specified in the notice of suspension during the period of suspension. If the situation causing the suspension continues for 60 days or more, then USAID may terminate this award on written notice to the recipient and cancel that portion of this award which has not been disbursed or irrevocably committed to third parties.
- (e) Termination and Suspension Procedures. Upon receipt of and in accordance with a termination notice as specified above, the recipient shall take immediate action to minimize all expenditures and obligations financed by this award and shall cancel such unliquidated obligations whenever possible. Except as provided below, the recipient shall not incur costs after the effective date of termination.

The recipient shall within 30 calendar days after the effective date of such termination repay to the U.S. Government all unexpended USAID funds which are not otherwise obligated by a legally binding transaction applicable to this award. Should the funds paid by USAID to the recipient prior to the effective date of the termination of this award be insufficient to cover the recipient's obligations in the legally binding transaction, the

recipient may submit to the Government within 90 calendar days after the effective date of such termination a written claim covering such obligations. The Agreement Officer shall determine the amount(s) to be paid by USAID to the recipient under such claim in accordance with the applicable Cost Principles. This provision must be included in all subagreements.

9. DISPUTES (OCTOBER 1998)

(a) Any dispute under this award shall be decided by the USAID Agreement Officer. The Agreement Officer shall furnish the recipient a written copy of the decision.

(b) Decisions of the USAID Agreement Officer shall be final unless, within 30 days of receipt of the decision of the Agreement Officer, the recipient appeals the decision to USAID's Assistance Executive. Any appeal made under this provision shall be in writing and addressed to the Assistance Executive, U.S. Agency for International Development, Office of Procurement, 1300 Pennsylvania Ave, N.W., Washington, D.C. 20523. A copy of the appeal shall be concurrently furnished to the Agreement Officer.

(c) In order to facilitate review on the record by the Assistance Executive, the recipient shall be given an opportunity to submit written evidence in support of its appeal. No hearing will be provided.

(d) A decision under this provision by the Assistance Executive shall be final.

10. INELIGIBLE COUNTRIES (MAY 1986)

Unless otherwise approved by the USAID Agreement Officer, funds will only be expended for assistance to countries eligible for assistance under the Foreign Assistance Act of 1961, as amended, or under acts appropriating funds for foreign assistance.

11. DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS (MARCH 1989).

(1) The recipient certifies to the best of its knowledge and belief, that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

(2) The recipient agrees that, unless authorized by the Agreement Officer, it will not knowingly enter into any subagreements or contracts under this grant with a person or entity that is included on the "Lists of Parties Excluded from Federal Procurement or Nonprocurement Programs". The recipient further agrees to include the following provision in any subagreements or contracts entered into under this award:

**DEBARMENT, SUSPENSION, INELIGIBILITY, AND VOLUNTARY EXCLUSION
(MARCH 1989)**

The recipient/contractor certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

(3) The policies and procedures applicable to debarment, suspension, and ineligibility under USAID-financed transactions are set forth in 22 CFR Part 208.

12. INVESTMENT PROMOTION (JANUARY 1994)

No funds or other support provided hereunder may be used in a project or activity reasonably likely to involve the relocation or expansion outside of the United States of an enterprise located in the United States if non-U.S. production in such relocation or expansion replaces some or all of the production of, and reduces the number of employees at, said enterprise in the United States.

No funds or other support provided hereunder may be used in a project or activity the purpose of which is the establishment or development in a foreign country of any export processing zone or designated area where the labor, environmental, tax, tariff, and safety laws of the country would not apply, without the prior written approval of USAID.

No funds or other support provided hereunder may be used in a project or activity which contributes to the violation of internationally recognized rights of workers in the recipient country, including those in any designated zone or area in that country.

This provision must be included in all subagreements.

13. NONLIABILITY (NOVEMBER 1985)

USAID does not assume liability for any third party claims for damages arising out of this award.

14. AMENDMENT (OCTOBER 1998)

Notices shall be effective when delivered in accordance with this provision, or on effective date of the notice, whichever is later.

16. METRIC SYSTEM OF MEASUREMENT (AUGUST 1992)

Wherever measurements are required or authorized, they shall be made, computed, and recorded in metric system units of measurement, unless otherwise authorized by the

Agreement Officer in writing when it has found that such usage is impractical or is likely to cause U.S. firms to experience significant inefficiencies or the loss of markets. Where the metric system is not the predominant standard for a particular application, measurements may be expressed in both the metric and the traditional equivalent units, provided the metric units are listed first.

17. SUBMISSION REQUIREMENTS FOR DEVELOPMENT EXPERIENCE DOCUMENTS (JAN 2004)

USAID MICROENTERPRISE POLICY

This is a summary of USAID's Microenterprise Development Policy. The full text can be found on the Microenterprise Innovations Project homepage at www.mip.org.

Extract from Major Functional Series 200 USAID Program and Project Assistance
Chapter 219 - Microenterprise Development

219.5 POLICY

219.5.1 SCOPE OF POLICY

Throughout this guidance and the Supplemental Reference, responsibilities assigned to "Missions" apply equally to any USAID/W operating unit that provides microenterprise assistance directly, i.e., other than through OYB transfers to USAID Missions.

219.5.2 EXEMPTION FOR SMALL-SCALE INFORMATIONAL ACTIVITIES

None of the policies or essential procedures stated herein restrict USAID assistance to organizations in the form of support for attendance at workshops, conferences, or training sessions; provision of literature; or similar low-cost, information-sharing activities.

219.5.3 PROHIBITION AGAINST ASSISTANCE TO IMPLEMENTING ORGANIZATIONS WITH PROGRAMS NOT OPEN TO WOMEN

USAID support shall only be provided to implementing organizations whose microenterprise development programs are both formally and effectively open to women. All assistance agreements with implementing organizations must require annual reporting of the percentage of women among their clients/beneficiaries.

219.5.4 HOST COUNTRY ECONOMIC ENVIRONMENT

Before signing an agreement to provide assistance to any microfinance institution, the Mission must consider the host country economic environment, particularly with regard to inflation and constraints on setting interest rates, to ensure that the prospects for assisted organizations to reach the performance standards identified in this guidance are not undermined.

219.5.5 ELIGIBILITY CONDITIONS FOR USAID ASSISTANCE TO MICROFINANCE INSTITUTIONS

219.5.5a MFI WILLINGNESS AND ABILITY TO SET FULL-COST-COVERING INTEREST RATES AND FEES

Before signing an agreement to provide assistance to any microfinance institution, the Mission must determine (1) that the institution has full and effective latitude to set interest rates and fees at full cost-covering levels; and (2) that the institution's management is prepared to charge interest rates and fees on loans that are high enough to cover the program's full long-run costs.

219.5.5b MFI COMMITMENT TO ATTAIN FULL FINANCIAL SUSTAINABILITY

Before the Mission signs an agreement to provide assistance to any microfinance institution, the management of the institution must provide the Mission with a credible

written commitment to (1) attain full financial sustainability on the MFI's financial service activities within no more than seven years of the initial provision of USAID assistance and (2) use USAID assistance to expand the availability of financial services to micro entrepreneurs and other poor people.

219.5.5c APPLICABLE MEASURE OF FINANCIAL SUSTAINABILITY

For purposes of satisfying 219.5.5b, full financial sustainability refers to the attainment of an adjusted return on operations of 1 or greater.

219.5.5d MFI PLAN FOR ATTAINING FINANCIAL SUSTAINABILITY

The assisted organization's commitment to reach full financial sustainability must be accompanied by a plan outlining the major steps to be undertaken in the process of achieving this goal, including a realistic timetable for undertaking those steps, and defining periodic benchmarks by which progress toward the goal can be determined.

219.5.5e MFI CONTROL OVER LOAN DELINQUENCY

Before signing an agreement to provide assistance to any microfinance institution that is already providing loans, the Mission must determine that the delinquency rate in the institution's loan portfolio is below 10%, and that its loss rate is below 5%.

219.5.6 REPORTING REQUIREMENTS FOR USAID-ASSISTED MICROFINANCE INSTITUTIONS

Every agreement to provide USAID assistance to any microfinance institution must include a requirement that the assisted organization provide USAID, on an annual basis, with a report of its financial and operational performance and outreach. This requirement applies whether or not the assisted organization regards financial services as the primary focus of its program.

219.5.6a APPLICATION OF REPORTING REQUIREMENTS TO MFIS SERVING BOTH POOR AND NON-POOR CUSTOMERS

For purposes of satisfying 219.5.6, a financial institution serving both poor and non-poor clients may, at its option, base its financial reporting on information relating to its overall portfolio. However, the required indicators of portfolio and outreach and of interest rate policy specifically refer to financial services targeted toward micro entrepreneurs and other poor people.

219.5.7 MFI USE OF PERFORMANCE INFORMATION AS FACTOR IN USAID DISBURSEMENT DECISIONS

In making decisions regarding disbursement of USAID assistance to microfinance institutions, Mission staff must consider both the effort the organization puts into gathering financial and operational performance data and the extent to which it uses those data in its decision making.

219.5.8 REPORTING REQUIREMENT FOR ORGANIZATIONS PROVIDING NON-FINANCIAL ASSISTANCE

Every agreement to provide USAID assistance to an organization that provides non-financial assistance to micro entrepreneurs must include a requirement that the assisted organization provide USAID, on an annual basis, with a report of its financial and operational performance and outreach. This report must provide suitable indicators of: (1) the number of clients provided each type of non-financial assistance, on a gender-disaggregated basis; (2) a budget, balance sheet, and profit/loss statement for

the program, which clearly identifies the program's different sources of funds, major cost elements, and the extent of cost recovery involved in the provision of each services; and (3) a set of program impact indicators that the Mission determines is sufficient to allow an assessment of the program's cost-effectiveness.

219.5.9 ELIGIBILITY CONDITIONS FOR USAID ASSISTANCE TO IMPLEMENTING ORGANIZATIONS PROVIDING BOTH FINANCIAL SERVICES AND NON-FINANCIAL ASSISTANCE

Every agreement to provide USAID assistance to an organization that provides both financial services and non-financial assistance to micro entrepreneurs must include (1) a commitment to attain financial sustainability in the provision of financial services, as specified in 219.5.5b and a plan to attain that goal as specified in 219.5.5d; and (2) a requirement to provide separate reporting on the outreach and financial and operational performance of the organization's financial services efforts and non-financial assistance, as specified in 219.5.6, 219.5.6a, and 219.5.8.

219.5.9a REPORTING REQUIREMENTS FOR PROGRAMS WITH LIMITED NON-FINANCIAL ELEMENTS

In any case where the Mission judges that an implementing organization accompanies its delivery of financial services with social messages or other limited non-financial assistance at little or no additional cost, the Mission may agree with organization managers to treat the program as a pure financial services program for reporting purposes.

219.5.10 RESTRICTION ON USAID SUPPORT TO ORGANIZATIONS OFFERING SUBSIDIZED LOANS FOR PURPOSES OTHER THAN MICROENTERPRISE DEVELOPMENT

USAID assistance shall not be provided to organizations that provide loans on a subsidized basis in order to induce participation in activities with objectives other than improved microenterprise performance (e.g., health, environment, or democracy.)

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a - k of Section B.

Section A, Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a single Federal grant program (Federal activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a single program requiring budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in Column (a) and the respective catalog number on each line in Column (b).

For applications pertaining to multiple programs where one or more programs require a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should always provide the summary totals by programs.

Lines 1-4 Columns (c) through (g)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in Columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (c) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (c) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (c) and (f).

Line 5 - Show the totals for all columns used

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4. Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Column (1) - (4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7 - Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program narrative statement the nature and source of income. The estimated amount of program income may be considered by the Federal grantor agency in determining the total amount of the grant.
